would like to let everyone know that Spring Turkey Season opened on March 29 and runs until May 4, while archery-only hunting continues until May 18. The Knoxville Wildlife Area is a premiere destination for many spring season turkey hunters and so the wildlife area could be busy, especially opening weekend. To avoid conflicts with other public uses, DFG wants everyone who may be planning hikes or other visits to be aware of the hunting season dates.

FISHIN with DINO Anglers trolling for salmon and trout did well this weekend! Use a Seps Pro Dodger Flasher followed by a Hoochie Lure. It worked very well this week. Seven salmon came into the Marina caught in about 20 feet of water. Skiers Cove shoreline was the hot spot. A few crappie are coming in. Early morning is the best time. Jigs and minnows will work off the bottom. Fish near docks or brush areas. Bass are hitting well on plastics. Drop shot in shallow waters and you will do well off any rock point. The Big Island area is producing well. No catfish as of this report. The water is still a little too cold. Temperature is 54 degrees. **Dino Righetti - Spanish Flat**

FX10 LLC, the renamed current operator of the Markley Cove concession area, submitted a successful offer to operate Markley Cove Resort, the southernmost concession area and the site closest to the City of Winters. FX10 LLC is headquartered in Winters, California, and is owned by Mr. and Mrs. John and Linda Frazier. □

Pleasure Cove Marina LLC, the current operator of the Pleasure Cove concession area, submitted a successful offer to operate Pleasure Cove Marina. Pleasure Cove Marina LLC, a Forever Resorts Property, is headquartered in Scottsdale, Arizona, and is owned by Mr. Rex Maughan. □

Pensus Group LLC submitted a successful offer to operate the Steele Park, Spanish Flat, Lake Berryessa Marina, Rancho Monticello, and Putah Creek concession areas under one contract. The Pensus Group LLC is headquartered in Paradise Valley, Arizona, and is owned by Mr. David Maule-Ffinch.

Fishing with Sid
The weekend ending April 13th was great fishing. Friday I took Travis out for a day of non stop fishing. We caught over 25 fish which included bass, crappie and trout. It seemed like everything was biting. Our success with the bass was that anything we threw out they were going for. They were hitting crankbaits, plastics you name it and it worked. This coming Sunday, April 20th, will be the full moon and I think this weekend should be even better. I won't be able to fish this coming weekend as I will be out of town but I hope to hear some good reports on how it went. Please check out the photos of some of the fish we caught 'til next time.....good fishing!!!!!!!!!!

Boat Permits?? A federal judge in San Francisco sided with fringe environmental groups and ruled that recreational boats are the same as international cargo ships. Under the bizarre ruling, the water ingested by your propulsion pump and cooling system is considered the exact same as the hundreds of tons of foreign ballast water discharged by a 60,000 ton merchantman from Liberia. The judge ruled that the Environmental Protection Agency (EPA) had no authority to grant a common sense exemption to millions of recreational boaters from having to obtain costly "Federal Pollution Permits" to engage in regular old recreational boating. Under the court ruling the EPA must develop a "federal pollution permit" system for the nation's roughly 18 million recreational boaters by September

"First year hunter Justin, along with his Dad Rob, bagged his first turkey Sunday March 30th on Grandpa John's Lake Berryessa property."

Boat Permits continued, by September 2008 - as in this coming September. With six months to go, Congress has finally acted on the issue. Senate Environment and Public Works Chair Barbara Boxer and Senator Bill Nelson have introduced S. 2766, the Clean Boating Act of 2008, which will fully and permanently restore the longstanding regulatory exemption for recreational boats and recreational boats used for charter fishing expeditions from any federal or state permitting under the Clean Water Act. Every boater needs to contact their Senator today and strongly urge them to support this common sense measure. For an easy and free way to contact your Senator please go to the following link: www.boatblue.org
